LETTER FROM THE EXECUTIVE BOARD

Dear Delegates,

It's our pleasure to address you all in the capacity of the Executive Board of the Joint Crisis Committee for the Strawberry Fields High School Model UN 2023. This note should help you understand the purpose and the structure of this committee in addition to the document that you must have received earlier.

As you are aware we would be simultaneously simulating two war cabinets in a Crisis Committee format. It is expected of you to operate with the best of your abilities, research and information to do justice to your respective portfolios. The actions/outcomes/directives of each cabinet would have consequences on the other and we will keep you informed of the updates in real time. You would be expected to exhibit astute critical thinking abilities along with great teamwork to reach quick and well thought out decisions as a cabinet.

We have further enhanced your portfolios with specific domains so as to help you have a direction and perspective of research and debate. It is expected of you to understand what roles and responsibilities each portfolio will bring to the war cabinet and debate your case as the authority and expert in the domain that you will be allotted. We also expect you to be extremely well versed with the geographies involved and the timelines of the events as they took place.

Expect to receive the first update within the next 24-36 hours. You are all free to connect with other members of your own cabinet through channels of your own choosing to optimize the time not spent in committee sessions. However, do note, any exchange in information or being in contact with the members of the opposing cabinet may lead to disqualification from the conference. You are expected to act as the members of cabinets set up to fight a war would.

Regards,

Executive Board
